Think Outside The Box...

Sometimes the High Street can give us the same old thing, from one clothes shop to the next it may seem that all there are is skinny jeans and 80's trends, gifts ideas are scarce, and confusion reigns when it comes to bodycare! So, here's something a bit different...

Fun, Comfort & Safety for Your Little Ones
Ensuring you keep play fun and interesting can be a tricky task, however, getting your kids outdoors is one of the simplest and best things you can do! Great additions such as a tree house, or playhouse of their very own can help to develop numerous skills and ensure they enjoy their play!

If you're looking for something comfortable your little ones, we would like to recommend Moccis! Providing parents with moccasins to keep their child's feet warm, comfortable and safe from nasty surprises, these cute must-haves come in all colours and designs. Our Designer, Lucy and Editor, Jenny, decided to try out a pair on their little ones...

Lucy commented: "Leah absolutely loves the star design, and I feel assured that she won't slip over due to the grips on the bottom. We are both chuffed with them!"

Jenny said: "Sean looks so cute in them and they are a great fit, as well as snug!"

Treat Yourself

Once your kids have had their treats, why not spend some of your hard-earned cash and treat yourself to a new item of clothing? Maybe even go for something a bit different to really make that treat count! Vintage clothing is one option we recommend, not only can you find some real stand out items, but also some bargains along the way. Vintage is always in and so time won't let that garment suffer either!

If it's your body you're concerned with, then why not check out our tips and tricks on the beauty feature in this issue! We all need a good pampering once in a while, and spring is the ideal time. So, why not consider using more organic products to be kind to your skin and really make it glow!

Brilliant Bespoke

When it comes to giving to others, nothing can be more personal than a gift that stands out from the usual High Street brands. Many boutiques and small independent shops can inspire you to find something that little bit different, even providing something bespoke and unusual! Cards can also say a lot so, think hand-crafted, bespoke and more personal than the limited options you may otherwise get in the usual stores!
